

CITY security barriers are a recommended solution for temporary enclosure of an area during sport events or concerts. Perfect for fencing sport routes, temporary communication routes and during mass events. They are available in four versions – with exchangeable feet (which allows for choosing the ones that are suitable for the surrounding and the ground), as well as with universal, fixed feet.

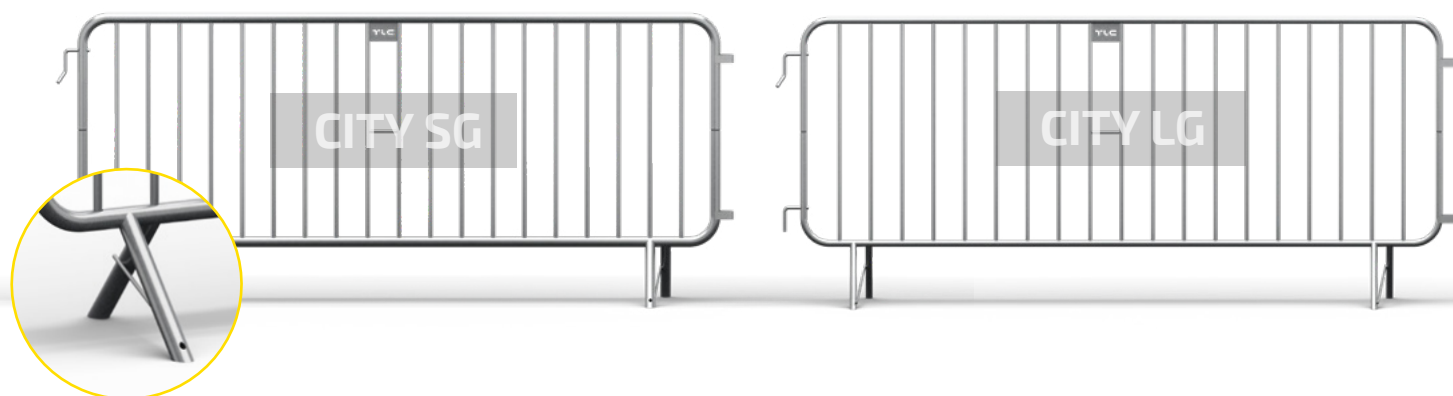

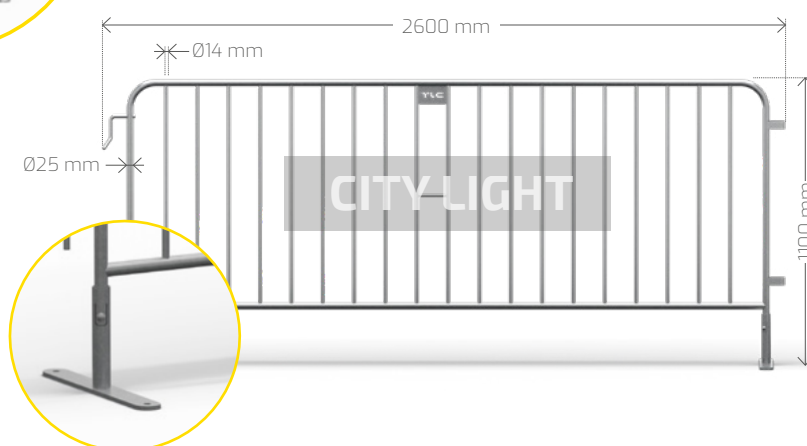

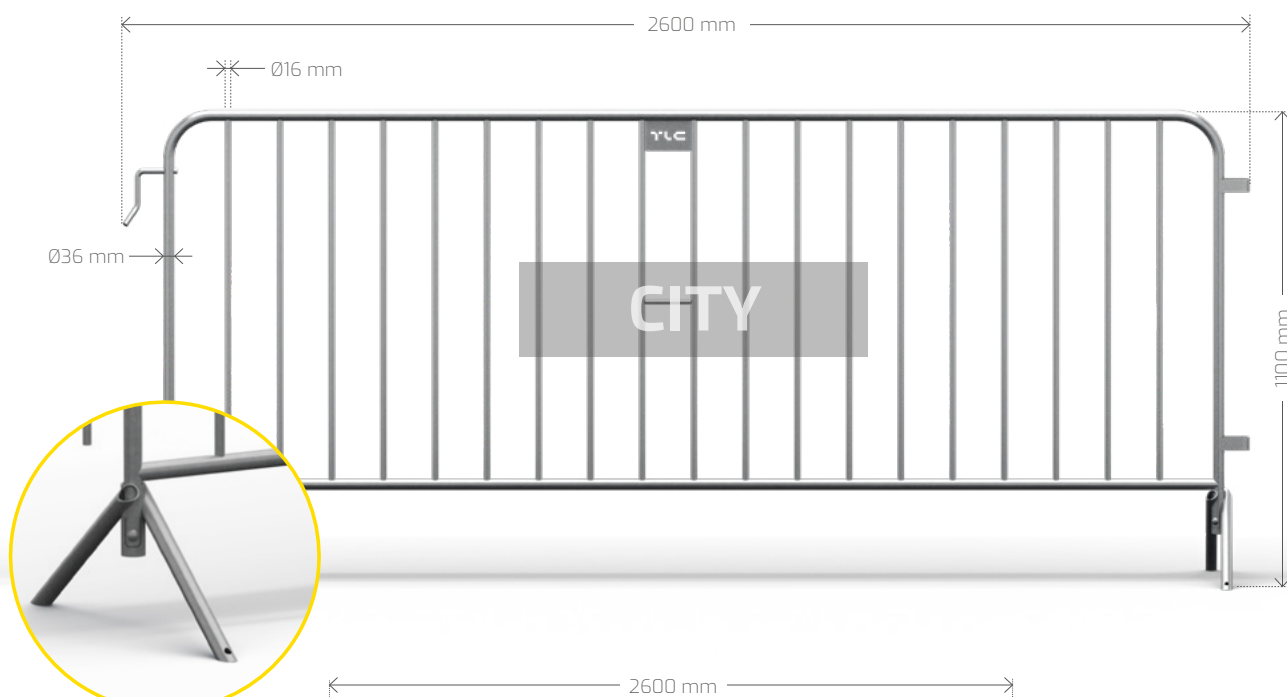

14 YEARS OF EXPERIENCE IN PRODUCTION

2 TYPES OF EXCHANGEABLE FEET

250 BARRIERS PRODUCED IN ONE DAY

* -Manufacturer certified according to EN 1090-1 issued by TUV SUD (Z527 notified body)
